MARCO NORMATIVO

El artículo 134 de la Constitución Política de los Estados Unidos Mexicanos (CPEUM) establece que los recursos de los cuales dispondrán la Federación, Estados y Municipios, se administrarán mediante criterios de eficiencia, eficacia, economía, transparencia y honradez para satisfacer los objetivos por los cuales se destinaron.

Con base en lo anterior, la Constitución Política del Estado de Jalisco, en su artículo 35 bis establece como atribución que la Auditoría Superior del Estado será el ente encargado de fiscalizar los recursos públicos estatales, en materia de la cuenta pública, con lo cual determinará la eficacia y economía del gasto público de conformidad con los indicadores aprobados y presentados por cada ente fiscalizable.

Asimismo, en la Ley de Fiscalización Superior y Rendición de Cuentas del Estado de Jalisco y sus Municipios (LFSRCEJ), en su artículo 29, determina que la revisión, examen y fiscalización de la cuenta pública es facultad del Congreso del Estado, que se realiza a través de la Auditoría Superior del Estado. Tiene por objeto conocer los resultados de la gestión financiera, para comprobar el cumplimiento de lo dispuesto en la Ley de Ingresos, Presupuesto de Egresos y demás disposiciones aplicables, en cuanto a la eficacia y economía de los ingresos, gasto y deuda públicos, también la revisión del manejo, custodia y aplicación de los recursos públicos estatales o municipales.

En conjunto con el artículo anterior, el artículo 36 establece que se deberá integrar como complemento al informe de avance de la gestión financiera, un informe anual de desempeño en la gestión, el cual debe contener evidencia sobre logros generados en función a los objetivos estratégicos propuestos por el sector específico con base al Sistema de Evaluación del Desempeño. También deberá incluir las metodologías utilizadas en la evaluación, recopilación y análisis de la información.

Por otro lado, la Ley del Presupuesto, Contabilidad y Gasto Público del Estado de Jalisco tiene por objeto la aplicación de los procedimientos de coordinación para el registro de información, las acciones correspondientes a las que el artículo 107 de la programación financiera, presupuestación, ejercicio, contabilidad, control, vigilancia, transparencia y evaluación del desempeño del gasto público estatal del Poder Ejecutivo del Estado a través de la Secretaría de la Hacienda Pública adicionalmente menciona como competencia de la Secretaría la verificación periódica de los resultados de recaudación y de ejecución de los programas y presupuestos de las Dependencias a través del Sistema de Evaluación del Desempeño, en el cual se incorporarán indicadores para evaluar los resultados presentados en los informes trimestrales para dar cumplimiento a los criterios de legalidad, honestidad, eficiencia, eficacia, economía, racionalidad, austeridad, transparencia, control, rendición de cuentas y perspectiva de género.

Dichos indicadores deberán formar parte del Presupuesto de Egresos de cada ejercicio fiscal e incorporar sus resultados en la Cuenta Pública, justificando las variaciones y su correspondiente efecto económico. Los resultados obtenidos tendrán como efecto la retroalimentación de los procesos de la programación, presupuestación y ejercicio de los recursos.

INTRODUCCIÓN

La Gestión para Resultados (GpR) es un modelo de desempeño institucional con mayor énfasis en los resultados que en los procedimientos. Dar respuesta a las preguntas ¿qué se hace?, ¿qué se logra? y ¿cuál es su impacto en el bienestar de la población?, por lo cual la Administración Pública ha tenido mayor relevancia, pues se pretende tener como respuesta la creación y consolidación de valor público, dando mayores resultados y avances para su gestión. La GpR se fundamenta en cinco principios. Dichos principios resultan cruciales en la determinación de la política pública, durante todo el proceso de gestión y en el arreglo institucional que las hace posibles. Los principios que fundamentan la GpR se describen de la siguiente forma[1]:

1. Centrar el diálogo en los resultados.
2. Alinear la planeación, programación, presupuestación, monitoreo y evaluación con los resultados.
3. Promover y mantener procesos sencillos de medición e información.
4. Gestionar para, no por, resultados.
5. Usar la información sobre resultados para aprender, apoyar la toma de decisiones y rendir cuentas.

Atendiendo los principios anteriores descritos, en el marco de la GpR y con fundamento en el marco Constitucional y legal, a partir de 2006 y hasta 2008, se implementó en la Administración Pública Federal el Presupuesto basado en Resultados (PbR), procurando la alineación entre la planeación, la programación, el presupuesto, el control, el ejercicio, el seguimiento y la evaluación del gasto público.[2] Bajo la misma estrategia, el PbR es el proceso que integra de forma sistemática, en las decisiones correspondientes, consideraciones sobre los resultados y el impacto de la ejecución de los Programas Presupuestarios y de la aplicación de los recursos asignados a éstos (DOF, 31/03/08). Con el objetivo de generar mayores beneficios a la población y a la forma en que los recursos son

aprovechados, por consecuencia, apoya la promoción de la rendición de cuentas y transparencia.

Por esas razones, es necesario destacar que para una implementación y operación adecuada del PbR se debe considerar, entre otras variables, la evaluación del desempeño de las políticas públicas y los Programas Presupuestarios, ya que de ellos se deriva la información necesaria para que las Dependencias y Entidades tomen decisiones de mayor confiabilidad.

La Ley Federal de Presupuesto y Responsabilidad Hacendaria establece en su artículo 2, fracción LI que el Sistema de Evaluación del Desempeño es el conjunto de elementos metodológicos que permiten realizar una valoración objetiva del desempeño de los programas, bajo los principios de verificación del grado de cumplimiento de metas y objetivos, con base en indicadores estratégicos y de gestión que permitan conocer el impacto social de los programas y de los proyectos.

Dicha evaluación genera información sobre la actuación de los ejecutores del gasto con relación al cumplimiento de metas y objetivos. La Organización para la Cooperación y el Desarrollo Económico (OCDE) define a la evaluación del desempeño como la evidencia que describe los resultados generados por las mediciones que se realizan sobre el desempeño, en términos de eficiencia, eficacia y efectividad de los servicios públicos que se prestan, el impacto que generan los mismos, así como de las metas y objetivos de los Programas Presupuestarios.[3]

Por lo cual, el presente Informe es una exposición y descripción de los avances y logros generados en función a los objetivos y metas establecidos por las Dependencias y Entidades de la Administración Pública del Gobierno del Estado de Jalisco, derivado del análisis de sus indicadores del ejercicio fiscal 2020.

Con este informe se pretende conocer el desarrollo de las Dependencias y Entidades en función de las metas alcanzadas mediante sus indicadores, en consecuencia se podrá determinar si las líneas de acción han sido eficientes y

[3] Presupuesto basado en resultados: Origen y aplicación en México, Dionisio Pérez-Jácome Friscione.

eficaces a la hora de alcanzar sus objetivos; se puede inferir que entre mejor sea su desarrollo en el alcance de sus metas, mayor impacto tiene en la sociedad, aprovechando de manera adecuada los recursos asignados.

Alineado a lo anterior, la metodología se centra en la información obtenida de los avances de las metas de indicadores establecidos en las matrices de Indicadores a nivel de Componente de los Programas Presupuestarios de las Dependencias y Entidades del Gobierno Estatal emitida por parte de la Secretaría de la Hacienda Pública (SHP) mediante el Sistema Estatal del Presupuesto basado en Resultados (SEPBR)

El análisis se centra directamente en las Unidades Presupuestales[4] (UP), las primeras que se analizan son las que se encuentran dentro del Poder Ejecutivo del Estado, siendo el Sector Central de la Administración Publica (AP) del Gobierno Estatal.

Además, se informa el resultado obtenido en el año 2020 en los indicadores definidos en el Plan Estatal de Desarrollo y que son monitoreados en MIDE-Jalisco.

El Monitoreo de Indicadores del Desarrollo (MIDE) Jalisco, es una estrategia del Gobierno del Estado que coordina la definición y el seguimiento dinámico y periódico de los indicadores y metas vinculadas al Plan Estatal de Gobernanza y Desarrollo (PEGD) vigente.

En la estrategia participan 35 dependencias y entidades del ejecutivo estatal, con base en la implementación de prácticas de gobierno abierto.

Cabe señalar que el ejercicio fiscal 2020, el presupuesto de ingresos y egresos resultó afectado por la pandemia generada por el virus SARS-CoV-2 (COVID-19), originando cambios repentinos que se solventaron gracias a las diferentes medidas tomadas por el Gobierno Estatal, las cuales se puntualizarán en la reducción/ampliación de recursos presupuestales en las diferentes Dependencias.

[4] Es el elemento de la Clave Presupuestaria correspondiente a la Clasificación Administrativa, que identifica y clasifica los Poderes Legislativo y Judicial, los Organismos Autónomos, así como las Dependencias y Entidades del Poder Ejecutivo que tengan asignación financiera directa para el ejercicio de sus funciones o aquellas que por su trascendencia deban ser consideradas como tales por el H Congreso del Estado; su base de identificación son la Constitución Política del Estado de Jalisco y las Leyes Orgánicas de los Poderes del Estado. *Lineamientos Presupuestales para la Administración Pública del Estado de Jalisco*.

METODOLOGÍA

La metodología está basada en una evaluación *"ex post"*, la cual es un procedimiento ordenado y sistemático para realizar análisis valorativos de los programas. El propósito, como ya se mencionaba, es conocer el grado de cumplimiento de los resultados esperados (metas establecidas), con la finalidad de incrementar la efectividad de los Programas Presupuestarios como una medida instrumental que fomenta la GpR. Este enfoque supone la apreciación sistemática y objetiva de la operación de la evaluación y sus resultados, incentivando que la toma de decisiones sea de manera competente.

El presente informe describe los avances establecidos en función a las metas y objetivos alcanzados de los indicadores de los Programas Presupuestarios alineados al Plan Estatal de Gobernanza y Desarrollo (PEGD) de las Dependencias y Entidades Públicas del Gobierno del Estado de Jalisco que componen la Clasificación Administrativa[5]. Dentro del análisis se detallan las modificaciones derivadas por COVID-19, que por consecuencia resultaron en variaciones a las metas calendarizadas previamente por las Dependencias así como el uso de los recursos, ya que tuvieron diversas reducciones y ampliaciones al respecto. Es por ello que las Dependencias presentaron la necesidad de ajustar sus objetivos de acuerdo a las medidas establecidas para combatir la pandemia.

El Informe se muestra con base a la semaforización de cada uno de los Componentes de la MIR (Matriz de Indicadores de Resultados) que se encuentran en los Programas Presupuestarios de las Dependencias del Poder Ejecutivo, Poder Legislativo, Poder Judicial, así como de los Organismos Públicos Autónomos, ya que representa el avance en la obtención de las metas

El monitoreo y seguimiento, se realizó en el nivel de Componente de las Matrices de Indicadores para Resultados en función de las metas alcanzadas derivado del acumulado de los reportes de avance trimestrales que las Dependencias del Poder Ejecutivo (Sector Central), el Poder Legislativo, Poder Judicial, Organismos

[5] Diario Oficial, (2011). Acuerdo por el que se emite la Clasificación Administrativa

Públicos Autónomos (Autónomos) y Entidades (Sector Paraestatal) presentan a la SHP, el porcentaje de avance se obtiene al dividir la cifra reportada de cada indicador con respecto a su meta modificada.

Con esto se establece una semaforización, en la que se refleja el estado de avance de los elementos analizados, en la Tabla 1 se describen los rangos de cada criterio que más se ajustan a sus resultados, caracterizado por colores:

TABLA 1: Categorías de Semaforización

	Óptimo:	80 - 130 % en cumplimiento de metas
	Mejorable:	60 - 79.99 % en cumplimiento de metas
	En riesgo:	0 - 59.99 % en cumplimiento de metas
	Meta excedida:	Mayor que 130% en cumplimiento de metas

Fuente: Secretaría de la Hacienda Pública (SHP).

En el presente informe correspondiente al ejercicio fiscal 2020, se establece un nuevo criterio en la semaforización, denominado “meta excedida” en el que se consideran los resultados que necesitan de una intervención de análisis programático, que permita el establecimiento efectivo de las metas de cada indicador. En comparación en con el informe del ejercicio fiscal 2019, este criterio se encontraba integrado en la categoría de “en riesgo”.

Con base en la semaforización anterior, se calcula la proporción que representan los indicadores mediante el cumplimiento de metas respecto del total de cada entidad analizada, de manera que es posible determinar cuál es el porcentaje de indicadores que se clasifican como: óptimos, mejorables, en riesgo y con meta excedida.

En consecuencia del análisis de todas las Dependencias de la Administración Pública Estatal, se estima de manera global el porcentaje de avance de las UP del Gobierno Estatal. En caso de resultar con un alto porcentaje de avances óptimos,

se tomará como logro en el cumplimiento de los objetivos establecidos por las Dependencias y Entidades, los cuales están alineados a los objetivos estratégicos del PEGD, lo cual concluye que los criterios puntualizados en el Marco Normativos se cumplen en función al aprovechamiento eficaz de los recursos[6] para el desarrollo institucional tanto como de valor público.

Partiendo de esta idea, el primer sector que se analiza son las Unidades Presupuestales que corresponden al Poder Ejecutivo, de las cuales se revisarán a nivel Componente y porcentaje de avance de metas.

Dicho sector mantiene el mayor número de UP en comparación a los otros 3 sectores: Poderes, Entidades y Organismos, contando con 35, seguido de los Autónomos con 5, Entidades 2 y por último los Poderes Judicial y Legislativo con 1 respectivamente.

Por lo cual, las modificaciones con respecto a las reducciones y ampliaciones presupuestales y programáticas realizadas a las dependencias recaen mayormente en el Poder Ejecutivo (Sector Central), las cuales se abordan con mayor profundidad al avanzar en la lectura de este informe.

[6] Entendido como el uso de los recursos necesarios para el cumplimiento de los objetivos/alcance de metas.

INDICADORES DEL PLAN ESTATAL DE GOBERNANZA Y DESARROLLO

En este apartado se describe de manera breve los avances obtenidos de los indicadores evaluables[7] de acuerdo al cumplimiento de metas del PEGD desagregados por nivel de Eje de Desarrollo y Temáticas Sectoriales. Dicha información se puede consultar con mayor profundidad en el "Informe de Avances 2020" de la Secretaría de Planeación y Participación Ciudadana que se presenta como anexo al concluir el informe.

En dicho informe se muestran los avances obtenidos de los indicadores por parte del Monitoreo de Indicadores del Desarrollo de Jalisco (MIDE Jalisco), los cuales describen 2 niveles, Indicadores Estratégicos e Indicadores Sectoriales, los cuales de manera global logran obtener 85.43% de cumplimiento general de metas en el año fiscal 2020.

Se destaca en primer término que el Eje de Desarrollo "5 Gobierno Efectivo e Integridad Pública" tiene el mayor porcentaje de avance contando con 91.05%, al contrario del eje "4 Desarrollo Sostenible del Territorio" que obtiene un avance de 77.63%.

Se analizaron 117 indicadores, de los cuales se desagregan en una tabla informativa que señala el avance de manera anual de cada indicador.

Como complemento de lo anterior, tomando en cuenta los Ejes de Desarrollo y Temáticas Sectoriales, en la tabla 2[8] se describen los Indicadores Estratégicos y de Gestión[9] a nivel de Componente de las Matrices de Indicadores de las diferentes Dependencias y Entes de la Administración Pública, destacando el número total de Temas Sectoriales, Unidades Presupuestales, Programas Presupuestarios,

De acuerdo con lo establecido en la tabla, los indicadores a nivel Componente con mayor porcentaje de avance óptimo se concentran en el eje 4 con 78%, mientras que en el eje 1 con el 54% siendo el de menor porcentaje con un resultado óptimo. Es importante señalar que, en el promedio general el 66% se encuentra en resultado óptimo.

MODIFICACIONES COVID-19

Se realizaron modificaciones a la Ley de Ingresos para el ejercicio fiscal 2020 de acuerdo al Decreto Número 27912/LXII/20 derivados de las medidas adaptadas para la Pandemia provocada por el virus SARS-CoV-2 (COVID-19), por las cuales se tuvieron reducciones y ampliaciones al Presupuesto de Egresos aplicados en el Programa de austeridad del gasto como respuesta a las acciones tomadas por parte del Gobierno del Estado de Jalisco, quedando de la siguiente manera:

De acuerdo al Artículo Cuarto del Decreto antes mencionado, publicado el 23 de mayo de 2020 en el Periódico Oficial de Estado de Jalisco, se autoriza al Titular del Poder Ejecutivo por medio de la SHP a seguir realizando las adecuaciones administrativas, programáticas y presupuestarias que resulten necesarias para atender los requerimientos de atención y prevención a la pandemia, así como la creación de los Programas de Reactivación Económica y Protección al Empleo que resulten necesarios, y las necesarias para dar continuidad a la operación de las Dependencias sin alterar el balance presupuestario.

Asimismo, se autoriza a la Secretaría de Hacienda a orientar las reasignaciones autorizadas por el Poder Legislativo, Judicial y Órganos Autónomos, a las acciones realizadas para la atención del COVID-19 del Sector Salud y de reactivación económica, por las siguientes cantidades:

Dichos recursos son estrictamente para solventar las medidas establecidas para combatir la pandemia, en este caso, debido al destino específico de la partida, los recursos no podrán ser utilizados con ningún otro fin.

PROGRAMAS DE ATENCIÓN COVID-19

Como parte de las medidas originadas por la pandemia, y de acuerdo a las modificaciones antes mencionadas, la SHP estableció como línea de acción la creación de siete programas para la Reactivación Económica y Protección al empleo. Estos programas fueron creados para aminorar las consecuencias generadas por el aislamiento social así como la forma en que la vida cotidiana resultó afectada por el virus, ya que debido a la emergencia sanitaria varios establecimientos y locales comerciales se vieron forzados a cerrar generando un fuerte golpe a la economía del Estado.

Lo anterior se prevé con fundamento en el artículo 26, fracción XIV de la Ley para el Desarrollo Económico del Estado de Jalisco (LDEEJ), en el cual se menciona que la Secretaría de Desarrollo Económico (SEDECO) tiene la atribución de proponer al Ejecutivo Estatal que se declare *emergencia económica*[10], así como los programas respectivos para el mantenimiento y subsistencia de las MIPYMES y el apoyo a la generación de empleos durante el periodo de emergencia.

Asimismo, el Consejo Estatal de Promoción Económica, puede realizar modificaciones a las actividades económicas sujetas a promoción y apoyos derivados de reclasificaciones extraordinarias de sectores, ramas productivas o regiones que necesiten de apoyos especiales y urgentes así como resultado de la declaratoria de estado de emergencia económica mencionada en el párrafo anterior.[11]

[10] Es la declaratoria emitida por el Titular del Ejecutivo Estatal de manera directa, a propuesta del Secretario de Desarrollo Económico y por recomendación de la Junta de Gobierno del Consejo, en los términos de la presente ley y su reglamento, y la cual podrá existir en caso de riesgo inminente de la caída de la producción estatal y del empleo. (LDEEJ, 3, IX)

[11] Artículo 10 fracciones III y IV de la LDEEJ.

Es por ello que algunos Programas Públicos presentaron afectaciones de acuerdo a la forma de entregar apoyos; en consecuencia, se tuvieron algunas diferencias en la forma de llevar a cabo las Reglas de Operación (ROP) de los mismos.

Dicho lo anterior, es necesario puntualizar en las ROP que de acuerdo al artículo 12 párrafo séptimo de la LDEEJ los programas destinados a la reactivación económica y fortalecimiento del empleo deberán definir una temporalidad específica de acuerdo a la ejecución del programa durante dicho periodo de emergencia.

Debido a las modificaciones por parte de la emergencia sanitaria, el 24 de marzo se publicó en el Periódico Oficial "El Estado de Jalisco", el acuerdo mediante el cual se crea el Plan Jalisco COVID-19. En este se anunció el primer paquete de medidas económicas de emergencia para atender los efectos de la emergencia sanitaria, por mil millones de pesos divididos en tres distintos tipos de apoyos.

Los Programas Presupuestarios de Protección al empleo ("Reactiva" y "Reinicia para Nómina y Capital de Trabajo") continuaron para 2021 con el objetivo específico de llevar a cabo la reactivación y fortalecimiento necesarios para hacer frente a las consecuencias de la pandemia.

Al mismo tiempo, los programas de la SSAS continúan para 2021, por parte del programa "Apoyo a las Organizaciones de la Sociedad Civil" en su modalidad Contingente podrá apoyar actividades sociales emanadas por la emergencia sanitaria por la propagación del virus denominado COVID-19 o alguna otra emergencia de salud que ponga en riesgo la vida de los beneficiarios de las OSC, o bien sirva para preservarla.

Sin embargo, a diferencia del año anterior, no está limitada a Centros de Asistencia Social (albergues) o Asociaciones del área médica, sino para todas aquellas OSC

que tengan una situación imprevista y que le impida cumplir con su objeto social o servicios que presta.

El recurso de los programas “Jalisco Por la Nutrición” y “Mujeres Líderes del Hogar” fueron etiquetados para la atención de la pandemia por COVID -19, por su naturaleza de atención a la garantía de alimentación de grupos prioritarios de atención, sin embargo, ambos programas conservaron su operación regular de acuerdo a las Reglas de Operación publicadas en 2021.

Con respecto a los programas de Secretaría de Cultura (“Programa Fondo a Talleres”, “Programa Proyecta Producción” y “Programa Proyecta Industrias Culturales y Creativas”), todas las convocatorias contribuyen para aminorar los efectos del COVID-19 a excepción de las convocatorias para los premios Estatales, sin embargo el programa “SumArte en Casa”, ya no está vigente para 2021.

Mientras que los programas de SADER y Protección al Ingreso estipulaban en sus documentos normativos (ROP/lineamientos) que solo estarían vigentes para el ejercicio fiscal 2020.

Además de los programas anteriores, se crearon dos programas para la atención médica del COVID-19.

El primero a considerar es por parte de la Secretaría de Salud, el Programa “Acciones de atención ante el brote epidemiológico COVID-19” que para el ejercicio fiscal 2020 recibió una asignación modificada por 947.6 mdp que fueron ejercidos en su totalidad[12] y que tiene por objetivo la prevención y atención oportuna de los casos con diagnóstico positivo al virus SARS-CoV2 para la reducción de las consecuencias y atención integral de las posibles secuelas derivadas de la epidemia COVID 19, que de acuerdo al avance de sus Componentes han atendido de forma favorable los objetivos planteados.

[12] De acuerdo con el Reporte de Control Presupuestal emitido por el Sistema Integral de Información Financiera (SIIF) de la SHP.

De acuerdo al seguimiento para el ejercicio fiscal 2021, el programa tiene como asignación inicial 274 mdp además de una transferencia por 49.4 mdp para la adquisición de Ventiladores así como fortalecer las acciones de prevención, contención, diagnóstico y atención de la Pandemia generada por COVID-19, sumando un total de 323.4 mdp para el desarrollo del programa.

Mientras que el segundo programa es de la Secretaría de Transporte que para el ejercicio fiscal 2020 implementó el Programa "Conexión Médica", que tiene como objetivo otorgar transporte seguro, gratuito y exclusivo para que el personal médico que labora en diferentes hospitales y clínicas de salud del Área Metropolitana de Guadalajara se traslade a sus centros de trabajo durante la emergencia sanitaria[13].

El presupuesto asignado se estableció por 20.3 mdp para las 9 etapas de desarrollo; dicho programa se contempla para el ejercicio fiscal 2021 derivado de la prolongación de la pandemia, aun así, no se establecen montos específicos para el desarrollo del mismo.

Los programas mencionados dentro de este apartado son considerados como Programas Sociales, Acciones u Otros apoyos de Gobierno dentro del portal oficial del COVID-19[14]. Sin embargo, no están considerados en su totalidad ya que algunos son gestionados y administrados por parte de las mismas Dependencias sin la completa participación e intervención de la SHP.

El artículo segundo describe que en caso de no utilizar el monto total mencionado anteriormente, podrán ajustarse los montos de dichos conceptos para aplicar las cantidades sobrantes en otras obras relativas a los conceptos enlistados, sin que puedan aplicarse en obras y acciones distintas a los mencionados en la tabla anterior. Mismo caso en el supuesto de no ejercer los recursos por sucesos causados por fuerza mayor o que estén justificados debidamente.

Para efectos de lo anterior, se realizaron modificaciones al Programa Anual de Inversión Pública en los cuales se describen las ampliaciones por parte de la contratación del crédito, esta información se puede consultar de manera detallada en la publicación por parte del Periódico Oficial "El Estado de Jalisco", donde se describe a nivel de unidad responsable, partida, concepto, habitantes beneficiados, ubicación y las modificaciones presupuestales.

Es importante puntualizar que en la reducción realizada al amparo de decreto 27912, se incluyen algunas asignaciones consideradas en el Plan de austeridad, que afecta a partidas del capítulo 4000 de programas considerados inicialmente de Inversión Pública, cuyas reducciones se integran en el reporte por Objeto del Gasto que acompaña al Plan Anual de Inversión Pública, además de que el total de la inversión se reflejó presupuestalmente una vez formalizados los contratos de crédito. Para los $2,600 mdp que se reportan por rubros generales, la desagregación por obra específica se realizó conforme se avance en las definiciones en los términos del decreto 29712/LXII/20.

Conforme a lo anterior, este informe presenta una síntesis del Plan Anual de Inversión Pública conformado por el total de cada unidad presupuestal y comenzando con la asignación inicial del ejercicio fiscal 2020 donde se puede observar de manera más clara y especifica las modificaciones realizadas por las reducciones mencionadas anteriormente en el decreto 27912, así como las ampliaciones (o recuperaciones[15]) estipuladas en el decreto 27913, así como el monto total o asignación modificada del mismo.

Respecto a lo anterior, es decir, las Modificaciones realizadas por COVID-19, los programas de atención y la contratación del crédito, guardan una estrecha relación sirviendo como contexto de la situación atípica del ejercicio fiscal 2020, los cuales tuvieron distintas afectaciones a los indicadores, mayormente en el establecimiento de metas y uso de recurso público.

[15] El resultado total de la recuperación y ampliaciones suman los $6,200'000,000.00 mencionados en la contratación del crédito.

INFORME DE RESULTADOS DE LA CLASIFICACIÓN ADMINISTRATIVA

En este apartado se enfocará en los Componentes que pertenecen a los diferentes sectores de la AP del Gobierno Estatal, partiendo del análisis de las Matrices de Indicadores para Resultados (MIR) de las Dependencias y Entidades del ejercicio 2020. Se revisó la información de 37 UP del Sector Central, 5 de Organismos Públicos Autónomos, 2 de Entidades del Sector Paraestatal, así como 2 entes pertenecientes a los Poderes Públicos, uno correspondiente al Poder Legislativo y el otro al Poder Judicial, tal como se detalla en la Tabla 3:

TABLA 11: Unidades Presupuestales analizadas

Sector Central	Organismos Públicos Autónomos	Entidades Paraestatales	Poder Judicial	Poder Legislativo

- Instituto Electoral y de Participación Ciudadana.
- Instituto de Transparencia, Información Pública y Protección de Datos Personales del Estado de Jalisco.
- Tribunal Electoral del Estado de Jalisco.

- Tribunal de Justicia Administrativa del Estado de Jalisco.

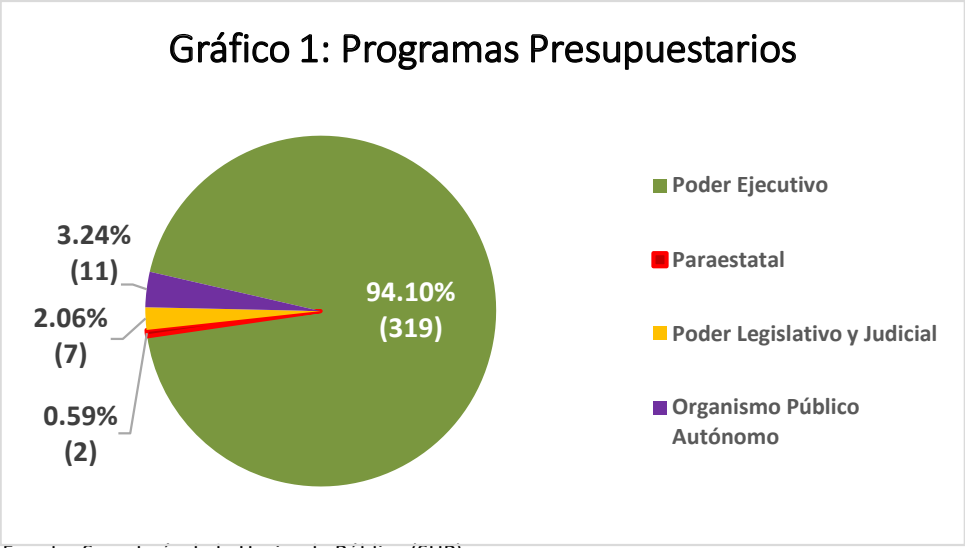
Las UP de las Entidades Paraestatales se conforman por:

- Universidad de Guadalajara.
- Secretaría Ejecutiva del Sistema Estatal Anti-Corrupción.

Las UP de los Poderes Legislativo y Judicial se conforman por:

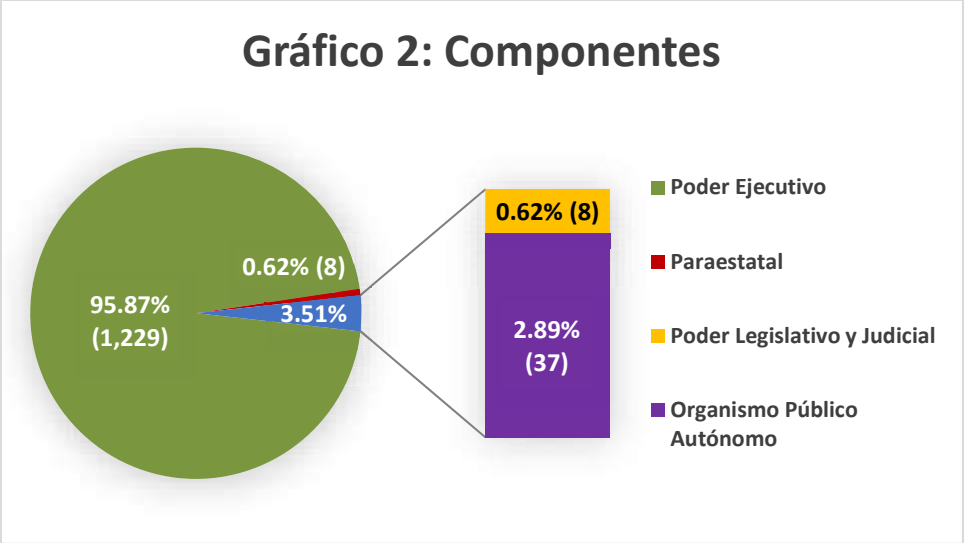
- Poder Legislativo del Estado de Jalisco.
- Poder Judicial.

Se consideraron para el análisis 339 Programas Presupuestarios, de los cuales 319 corresponden a Dependencias del Sector Central estatal, 2 más a Entidades del Sector Paraestatal, 7 a Poderes Públicos (Legislativo y Judicial) y 11 a Organismos Públicos Autónomos, en el siguiente Gráfico 1 se representa su representación en porcentaje:



Fuente: Secretaría de la Hacienda Pública (SHP).

Los 339 Programas Presupuestarios, contienen 1,282 Componentes, de los cuales 1,229 corresponden a Dependencias del Sector Central estatal, 8 más a Entidades del Sector Paraestatal, 8 a Poderes Públicos (Legislativo y Judicial) y 37 a Organismos Públicos Autónomos, en el siguiente Gráfico 2 se representa su representación por porcentaje:



Fuente: Secretaría de la Hacienda Pública (SHP).

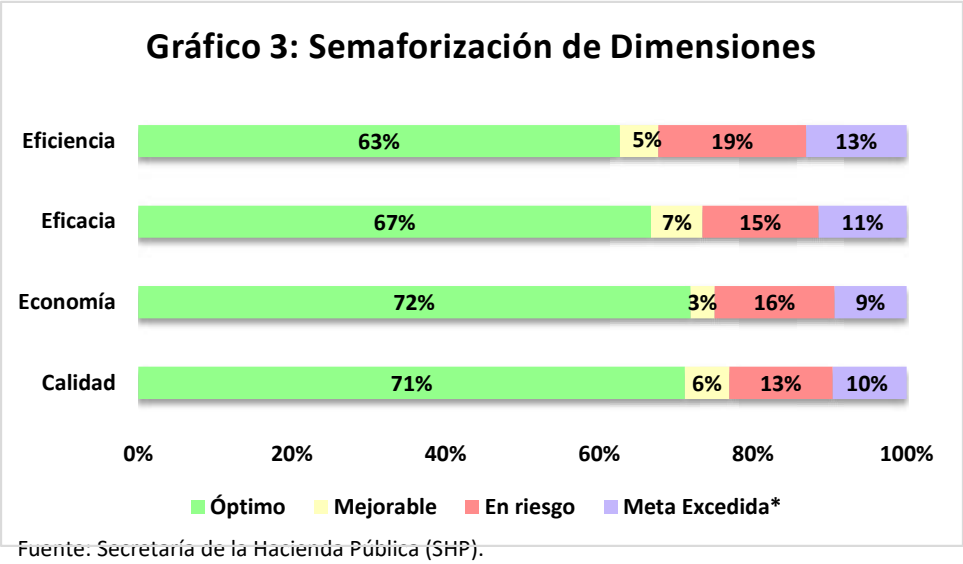
Para ampliar el panorama, se dimensionaron los indicadores de acuerdo con cuatro criterios: calidad, economía, eficacia y eficiencia reflejados de manera proporcional.

TABLA 12: Dimensión de indicadores

Dimensión	Indicadores	Porcentaje
Calidad	52	4%
Economía	32	3%
Eficacia	839	65%
Eficiencia	359	28%
Total	**1,282**	**100%**

Fuente: Secretaría de la Hacienda Pública (SHP).

Si aplicamos el enfoque de los indicadores, de acuerdo con estos criterios y en función de la semaforización antes mencionada, se puede determinar el avance por cada una de las dimensiones y la afinidad en la cual los indicadores presentan un nivel óptimo a la hora de presentar resultados, tal como indica el gráfico 3:



Fuente: Secretaría de la Hacienda Pública (SHP).
*Es necesaria la intervención de un análisis programático para el establecimiento efectivo de metas.

En resumen, la valoración de los indicadores establecidos dentro de los Programas Presupuestarios ha tenido en cada dimensión un avance óptimo en la mayoría de los indicadores, ya que en cada una **se observa que más del 60% de los indicadores se encuentra dentro de los parámetros óptimos establecidos reflejados con color verde**.

Es necesario comparar el **avance que se tiene de acuerdo a los datos obtenidos en 2019**. La tabla siguiente representa el avance global de los indicadores de acuerdo a la semaforización de cada año fiscal, en la cual **se aprecia el incremento por 12% de las metas cumplidas por los indicadores dentro del rango óptimo**, cumpliendo con las expectativas presentadas en el Informe Anual de Desempeño en la Gestión 2019, en el cual se estableció que para 2020 se estimaba el incremento de dichos indicadores por encima del 60% en cada una de las dimensiones.

TABLA 13: Avance Global de metas

Año Fiscal	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	54%	9%	19%	18%
2020	66%	6%	16%	12%

Fuente: Secretaría de la Hacienda Pública (SHP).

De acuerdo con lo anterior, es importante reconocer el apoyo y esfuerzo realizado por las entidades al dar continuidad y seguimiento oportuno de sus indicadores, atendiendo mayormente las recomendaciones emitidas por la Dirección de Programación de la SHP, derivadas de la Evaluación Programática realizada a cada uno de los Entes y Dependencias de acuerdo a la Metodología del Marco Lógico (MML), la cual se realizó en la integración del proyecto de presupuesto de egresos 2021.

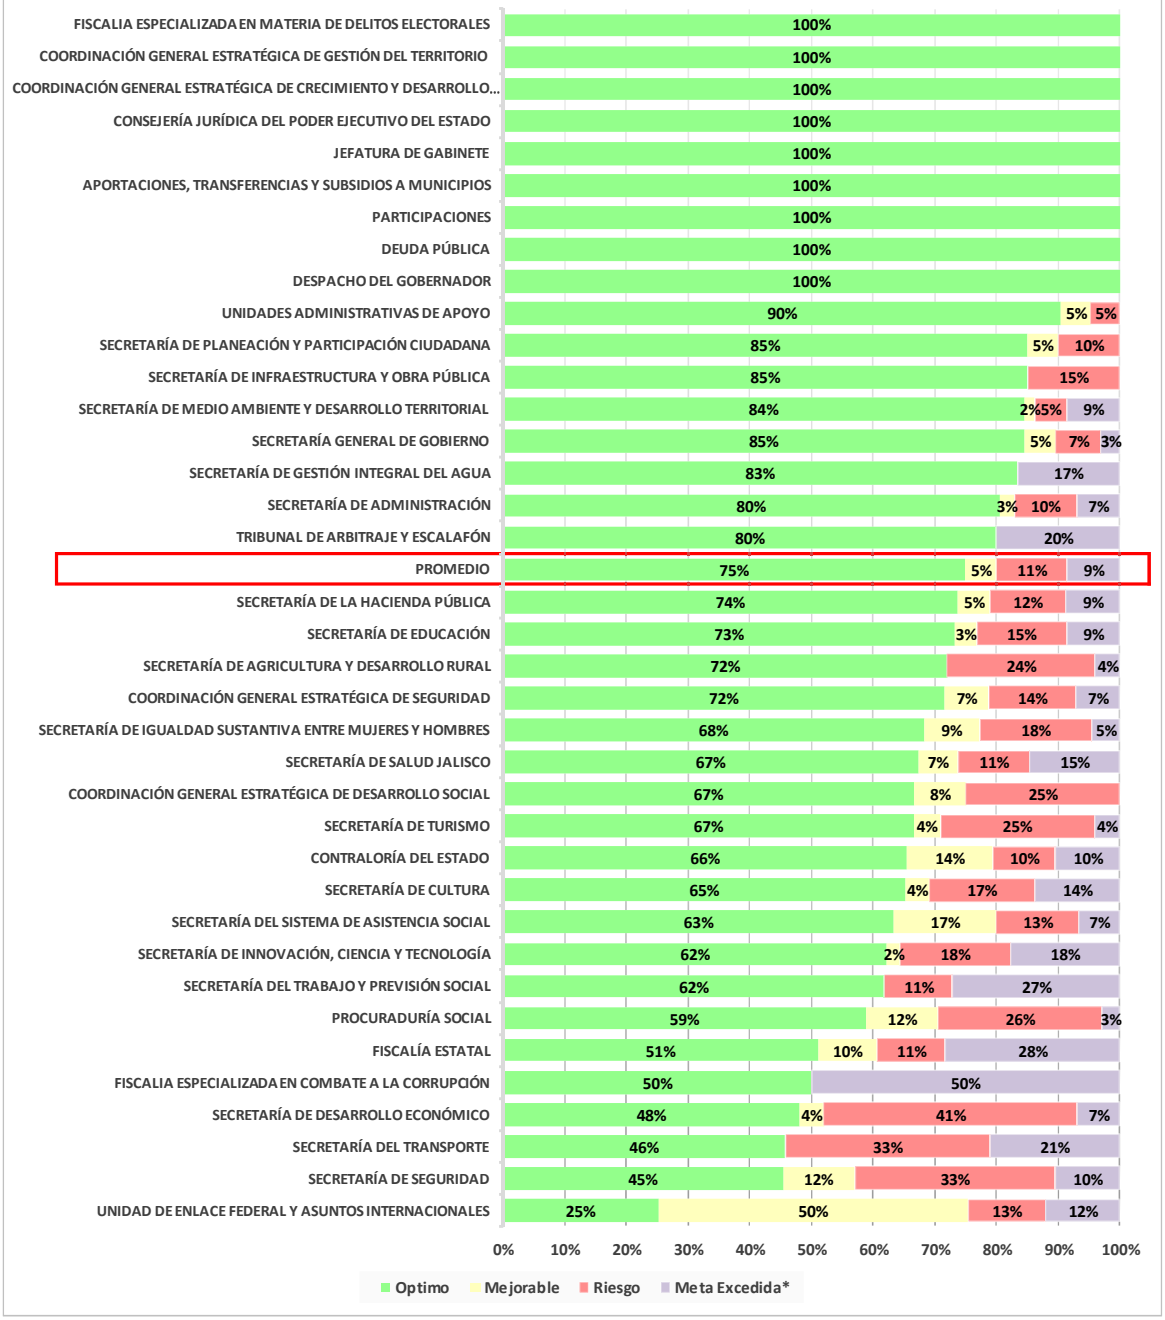
De igual importancia, se destaca el avance obtenido considerando que las entidades asumieron la responsabilidad de dar respuesta inmediata al realizar las modificaciones programáticas motivadas por las medidas de contingencia generadas por la pandemia, ya que como se mencionaba con anterioridad, los recursos de algunas de ellas sufrieron afectaciones, por ende, sus objetivos también resultaron perjudicados.

Partiendo de lo anterior, prevalece el enfoque del análisis realizado en 2019, el cual se centra de manera particular en las Unidades Presupuestales por sector, como lo describe la Tabla 3 de este informe, comenzando con el Poder Ejecutivo, ya que cuenta con la mayoría de las UP, destacando la valoración del porcentaje de avance en el cumplimiento de metas y posteriormente se detalla la justificación y puntualización de las variaciones derivadas por la pandemia.

PODER EJECUTIVO

El Poder Ejecutivo se conforma de 37 Unidades Presupuestales, las cuales se muestran en la gráfica 4, junto a sus porcentajes de avance, de acuerdo con las categorías de semaforización.

Gráfico 4: % Avance de Metas por UP



Fuente: Secretaría de la Hacienda Pública (SHP).
*Es necesaria la intervención de un análisis programático para el establecimiento efectivo de metas.

El principal punto a destacar es el considerable avance en el promedio de los porcentajes, ya que para 2020 con respecto a 2019 **se tuvo un incremento del 19% en el promedio de avances óptimos, lo cual refleja el desarrollo "positivo" de los indicadores dentro de las Dependencias del Poder Ejecutivo**, asimismo cabe considerar que la mayor disminución se dio en el apartado de los indicadores con meta excedida, disminuyendo 9% del promedio total de esa categoría.

TABLA 14: Promedio de Avance de metas Poder Ejecutivo

Año Fiscal	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	56%	7%	19%	18%
2020	75%	5%	11%	9%

Fuente: Secretaría de la Hacienda Pública (SHP).

Por el contrario, **el 54% de las Dependencias analizadas del Poder Ejecutivo no logran alcanzar el promedio, las cuales, aun teniendo más del 70% de avance, deben enfocar sus esfuerzos y actividades en disminuir en su totalidad al menos el porcentaje categorizado de metas excedidas.**

Como se ha mencionado anteriormente, dichos resultados se relacionan con diferentes factores, algunos de ellos como la omisión en la captura de los avances trimestrales, la captura errónea de los datos, fallas en la medición de las metas, que se puede traducir como una mala planeación en la programación de los objetivos de los Programas Presupuestarios; incluso uno de los errores más comunes dentro de estos procesos es la falta de actualización continua de indicadores y metas con base principalmente en la modificación derivada de la suficiencia de recursos, cambios en Componentes, actividades o cualquier otra variable dentro de los indicadores.

Ejemplos claros como la Pandemia son los factores que propician que se den modificaciones no solo programáticas, sino también presupuestales... Lo anterior recae en las metas y objetivos previamente establecidos, ya que, al existir modificaciones en recursos y estructura programática, es necesario adecuar nuevamente las proyecciones de los indicadores.

En conjunto con lo anterior, se debe tomar en cuenta que para disminuir el criterio de “metas excedidas” es necesaria una intervención de análisis programático que ayude a establecer de manera efectiva las metas de cada indicador. El seguimiento y monitoreo son actividades que ayudarán a las Dependencias y Entidades a conocer de manera general/particular el desarrollo de sus Componentes y Actividades, por lo cual, al existir factores exógenos es posible trazar una ruta axiológica alternativa para adaptarse a la situación sin necesidad de que sus indicadores reflejen resultados “negativos”.

En resumen, el Poder Ejecutivo presenta un avance óptimo del 67%, frente a un 6% en avance que puede ser mejorable, 16% en riesgo y tan solo 11% en metas excedidas en su cumplimiento, que si se sumaran como óptimas sumarían 78%. Lo anterior en función a los porcentajes de todas las UP antes analizadas (tabla 6).

Tomando en cuenta los datos anteriores, se aprecia la posición que representan la mayoría de las UP frente al seguimiento realizado de manera trimestral por parte de la Secretaría de la Hacienda Pública, siendo de manera “positiva” y con grandes posibilidades de seguir en constante mejora. Algunos ejemplos puntuales de mejora en sus indicadores son la Jefatura de Gabinete, Aportaciones, Transferencias y Subsidios a Municipios y la Secretaría de Igualdad Sustantiva, ya que en 2019 fueron las tres UP con los porcentajes óptimos más bajos.

En comparación con el año 2020 mejoraron la forma en que planearon y presentaron sus indicadores, ya que como se indica en la tabla siguiente, hubo un incremento considerable en el avance óptimo y mayores disminuciones en los indicadores con riesgo:

TABLA 15: Comparativa evaluaciones más bajas 2019

Jefatura de Gabinete				
Año Fiscal	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	18%	0%	10%	72%
2020	100%	0%	0%	0%
Aportaciones, Transferencias y Subsidios a Municipios				
Año Fiscal	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	20%	60%	20%	0%
2020	100%	0%	0%	0%
Secretaría de Igualdad Sustantiva entre Mujeres y Hombres				
Año Fiscal	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	22%	3%	60%	15%
2020	68%	9%	18%	5%

Fuente: Secretaría de la Hacienda Pública (SHP).

El avance de Jefatura de Gabinete es por un 82% en sus indicadores, lo cual indica que la Unidad Presupuestal de manera interna realizó modificaciones a la estructura programática de sus Programas Presupuestarios, más en específico a las metas establecidas para los indicadores de sus Componentes y Actividades con base a los criterios establecidos de la Metodología del Marco Lógico.

Como también es el caso de las Aportaciones, Transferencias y Subsidios a Municipios, los cuales tenían una gran oportunidad de mejora en sus indicadores, ya que el 60% de estos se encontraban dentro de la categoría de mejorable, lo cual aprovecharon al máximo y obtuvieron el 100% en la optimización de sus elementos.

Los porcentajes de la Secretaría de Igualdad Sustantiva apuntan a un desarrollo amplio, pero aún mantienen oportunidades de mejora, ya que optimizaron 46% más de los avances correspondientes al año fiscal 2019.

Lo anterior determina la dinámica de mejora continua dentro de las Dependencias del Poder Ejecutivo, ya que el crecimiento ha sido de tal forma que se ha podido avanzar en los aspectos más relevantes de la evaluación realizada al cumplimiento de las metas.

Para 2020 la Unidad de Enlace Federal y Asuntos Internacionales obtuvo la calificación mínima de este informe siendo la que mayores necesidades tiene a la hora de modificar la estructura de sus indicadores, principalmente en lo consecuente al cumplimiento de sus objetivos.

No obstante, se debe resaltar que la pandemia afectó en gran medida a las actividades principales de esta Dependencia, las cuales tienen como objetivo desarrollar, coordinar y enriquecer las relaciones de carácter político, económico, cultural y de cooperación internacional entre el Estado de Jalisco y los demás Estados y regiones que componen la República, por lo cual ha sido una tarea bastante complicada, puesto que la pandemia tuvo afecciones generales de manera mundial.

ORGANISMOS PÚBLICOS AUTÓNOMOS

En el sector de los Organismos Públicos Autónomos que se analizaron mantienen en su mayoría indicadores en riesgo, tal como lo muestra la tabla 8:

TABLA 16: Avances de los Organismos Públicos Autónomos

Dependencia	Óptimo	Mejorable	En riesgo	Meta Excedida
Comisión Estatal de Derechos Humanos de Jalisco	20%	10%	0%	70%
Instituto Electoral y de Participación Ciudadana	0%	0%	100%	0%
Instituto de Transparencia, Información Pública y Protección de Datos Personales del Estado de Jalisco	44%	6%	6%	44%
Tribunal Electoral del Estado de Jalisco	0%	0%	100%	0%
Tribunal de Justicia Administrativa del Estado de Jalisco	0%	0%	100%	0%

Fuente: Secretaría de la Hacienda Pública (SHP).

Los Organismos Autónomos con los más altos porcentajes en riesgo son el Instituto Electoral y de Participación Ciudadana, el Tribunal Electoral del Estado de Jalisco y el Tribunal de Justicia Administrativa del Estado de Jalisco. Comparado con el Instituto de Transparencia, Información Pública y Protección de Datos Personales del Estado de Jalisco con riesgo mínimo de 6%.

Se debe considerar la importancia de la incesante tendencia en torno a las temáticas de “Derechos Humanos” y “Transparencia y Rendición de Cuentas” que han tomado un claro repunte en la toma de decisiones políticas y sociales del Estado, por lo cual se deben focalizar aún más los esfuerzos en estas Unidades Presupuestales teniendo mayor consideración en las recomendaciones emitidas por parte de la SHP.

ENTIDADES PARAESTATALES

En las Entidades Paraestatales analizadas, se puede observar de manera contundente la diferencia entre los avances presentados en la tabla 9:

TABLA 17: Avances de las Entidades Paraestatales

Dependencia	Óptimo	Mejorable	En riesgo	Meta Excedida
Universidad de Guadalajara	80%	0%	0%	20%
Secretaría Ejecutiva del Sistema Estatal Anti-Corrupción	100%	0%	0%	0%

Fuente: Secretaría de la Hacienda Pública (SHP).

La Secretaría Ejecutiva del Sistema Estatal Anti-Corrupción destacó con un avance presentado del 100% de sus indicadores en comparación al 20% obtenido en 2019. La Universidad de Guadalajara obtuvo 80% de avance óptimo, sin embargo, a diferencia del año 2019 no se tomó en cuenta el criterio correspondiente a las metas excedidas, lo cual infiere que los indicadores no solo cumplieron las expectativas de los objetivos, sino que incluso sobre pasaron las metas previamente establecidas. Casos particulares como este denotan la importancia de dar seguimiento puntual a las actividades internas y cambios externos de las Dependencias.

Por otro lado, estas dos Entidades solo tienen 8 Componentes de los cuales se realizó el análisis del avance de metas, siendo esto un factor por el cual incrementen o disminuyan los porcentajes de avances. Como ejemplo, el caso de la Secretaría Ejecutiva del Sistema Estatal Anti-Corrupción, cuenta con solo 3 Componentes[16], basta con que un solo indicador presente avances en riesgos para disminuir de manera drástica el resultado.

[16] De acuerdo con los informes de avances trimestrales del ejercicio fiscal 2020 de la SHP.

PODER LEGISLATIVO Y PODER JUDICIAL

En el sector de los Poderes, el resultado de sus avances es similar al caso anterior, estos Poderes comparten la similitud de tener pocos Componentes a analizar, 5 del Poder Legislativo y 3 del Poder Judicial, es por ello que la evaluación fluctúa de manera drástica, ya que, si en alguno de los informes trimestrales se capturan porcentajes en riesgo, eso repercute de manera considerable en el resultado final.

TABLA 18: Avances del Poder Legislativo y Poder Judicial

Dependencia	Óptimo	Mejorable	En riesgo	Meta Excedida
Poder Legislativo del Estado de Jalisco	0%	0%	100%	0%
Poder Judicial	33%	0%	67%	0%

Fuente: Secretaría de la Hacienda Pública (SHP).

Los resultados que se muestran para estos poderes no son representativos, dado que su figura constitucional no los subordina al Poder Ejecutivo y no les obliga el registro de los avances en las metas de los indicadores de sus programas.

La pandemia es un factor importante a considerar también en las funciones de estas Unidades Presupuestales, ya que mayormente se atiende al público en general para situaciones jurídicas y reuniones masivas (juzgados, cámaras de congresos, audiencias, por mencionar algunas). Además de la naturaleza de los trámites, tales como defunción, que por desgracia han incrementado debido al impacto en la salud de la población.

CONCLUSIONES

Como se ha descrito a lo largo del informe, el análisis se basó en presentar el porcentaje de avance de los indicadores a nivel Componente de la Administración Pública del Estado de Jalisco, con base en la información generada por la Secretaría de Hacienda Pública mediante sus informes de avances trimestrales de acuerdo al acumulado obtenido al cierre del ejercicio fiscal.

La tendencia observada en los diferentes análisis, como son por dimensión y de manera particular con cada sector que engloba diferentes UP, refleja en su mayoría avances óptimos, visualizados de manera global en la siguiente tabla, en consecuencia, podemos concluir que más del 60% de los indicadores cumplieron de manera óptima con las metas establecidas y con los objetivos buscados de cada una de las Unidades Presupuestales. Aunado a lo anterior, se tiene un 6% de avance catalogado como "mejorable" en los indicadores, lo cual nos indica que se tiene un 72% total en avances "positivos" (sumando los porcentajes de indicadores óptimos y mejorables), ya que no presentan alto riesgo en el cumplimiento.

TABLA 21: % de Indicadores por semaforización

Año Fiscal	Componentes	Óptimo	Mejorable	En riesgo	Meta Excedida
2019	1,164	54%	9%	19%	18%
2020	1,282	66%	6%	16%	12%

Fuente: Secretaría de la Hacienda Pública (SHP).

A diferencia del ejercicio fiscal anterior, el porcentaje óptimo incremento un 12%, demostrando la eficiencia en los resultados de acuerdo a la relación del cumplimiento de las metas. En cambio, el porcentaje mejorable disminuyó 3% derivado de la atención oportuna de las recomendaciones y el trabajo conjunto de las áreas programáticas/presupuestales de las diferentes Dependencias y Entidades de la Administración Pública Estatal. Por último, la categoría de indicadores en riesgo se fragmento de acuerdo a la nueva categoría de "metas excedidas", que en conjunto suman 28%, que en comparación a 2019 que engloba ambos criterios, se logró disminuir el porcentaje de avances "negativos" en un 9%,

contribuyendo al progreso y mejora continua de los indicadores con respecto a la Metodología del Marco Lógico y los lineamientos programáticos presupuestales establecidos.

Sin embargo, es necesario trabajar de manera continua en el porcentaje de riesgo y metas excedidas de los indicadores, ya que se mantienen porcentajes considerables derivados de diferentes factores, los cuales se han explicado a lo largo del documento, estos pueden ser las formas en que se llevan a cabo las proyecciones de los objetivos, es decir, como se planifican las acciones de las Dependencias para conseguir resultados a lo largo del ejercicio fiscal, ya que de eso depende la frecuencia en que se pretende medir el indicador y en consecuencia realizar el registro de sus logros o metas alcanzadas. Es por esto que se puntualiza de manera repetitiva la necesidad de modificar los objetivos y metas de manera real mediante una eficiente planeación, programación, organización y seguimiento.

Asimismo, se considera la capacidad de cada una de la Dependencias y Entidades de adaptarse a las debilidades y amenazas resultantes de diferentes fenómenos, tanto públicos, económicos, políticos, e incluso naturales.

Debido a lo anterior, se cuestiona la forma en que se establecen las metas y se ejercen los recursos con el propósito de llevar a cabo sus Programas Presupuestarios, así como las actividades administrativas y se emiten recomendaciones al respecto para llevar a cabo un desarrollo práctico, sostenible y provechoso.

Por otro lado, tomando en cuenta el 6% que representa el avance mejorable, se mantiene un área de oportunidad de mejora notable con la cual se busca incrementar los niveles “positivos” en los porcentajes de avance de los indicadores, cuidando aspectos como el seguimiento y actualización constante de la información de cada Dependencia y Entidad, reconociendo la necesidad e importancia de modificar, de forma real las proyecciones y objetivos esperados de las MIR.

Por otra parte, se considera un enfoque distinto en donde se visualiza la relación de las diferentes Dependencias y Entidades analizadas que se da en función de la

semaforización como la que se muestra a continuación en el gráfico 5, en la cual se detallan los porcentajes de avance de cada categoría de semaforización de acuerdo con cada sector.

*Es necesaria la intervención de un análisis programático para el establecimiento efectivo de metas.

En el nivel óptimo, en el cual los Organismos Autónomos mantienen una mayoría por 45% del total. Mientras que en el nivel mejorable predomina el Poder Ejecutivo con 55%. En el nivel de riesgo se mantienen por mayoría predominante las Entidades Paraestatales con un 67%, mientras que el porcentaje de metas excedidas es mayormente para los Poderes Legislativo y Judicial con 63%.

Es necesario destacar la importancia del fortalecimiento, integración y/o equipamiento de las áreas internas de planeación, monitoreo, seguimiento y evaluación de cada una de las Dependencias y Entidades, así como la formación, capacitación y profesionalización de las y los Servidores Públicos que participan en las funciones y atribuciones correspondientes al ciclo presupuestario, además de la constante comunicación de las Unidades Presupuestales y la consultoría de la Secretaria de la Hacienda Pública, ya que son un eslabón fundamental en la cadena

de desarrollo, gestión y presentación de información de los avances requeridos que deben ser entregados en tiempo y forma, logrando de manera indudable, un incremento productivo en los resultados de la información que se analiza.

Se pretende año con año, disminuir el factor de riesgo e incrementar los porcentajes valorados como óptimos, aprovechando las fortalezas y oportunidades de cada Dependencia y Entidad para contrarrestar las evaluaciones "negativas" (componentes en estado mejorable, riesgo y con metas excedidas), reflejando así un incremento en la capacidad y eficiencia de la Administración en el aprovechamiento de sus recursos y herramientas, resultando en un favorable desarrollo de la GpR.

Es necesario enfatizar la relación existente entre los objetivos esperados y establecidos en el PEGD y los indicadores de desempeño, ya que mantienen una misma alineación de acuerdo con el plan de acción determinado por parte del Gobierno Estatal, entendidos como la línea a seguir en consonancia a los objetivos y metas establecidos en la AP, los cuales se enlistan como resultados generales en la siguiente tabla[17]:

En consecuencia, se puede inferir que las Matrices de Indicadores por Resultados se encuentran 100% alineadas al PEGD, lo cual nos permite conocer el avance de los objetivos establecidos en dicho plan, que sirven como evidencia sobre los logros generados en función al cumplimiento de los objetivos establecidos.

Es importante mencionar también que las modificaciones realizadas, producto de la pandemia, afectaron en gran escala y de manera "negativa"[18] con la forma en que se estimaron los resultados y avances proyectados.

A corto plazo, se puede concluir que el Gobierno del Estado de Jalisco actuó de manera efectiva conforme a derecho y con las prioridades claras, pronunciando su participación en los diferentes sectores para la correspondiente atención de la pandemia mediante el apoyo de programas directos e indirectos así como la contratación del crédito para fortalecer las actividades de inversión pública; mismos que cumplen su función del fortalecimiento del entorno económico, social, laboral y político.

Por lo cual y a manera de conclusión, se determina que los avances resultan principalmente prometedores y favorables en el periodo de mediano plazo, tanto en los Componentes de las UP, así como en los objetivos establecidos por el Gobierno del Estado, para alcanzar un mayor desarrollo en la Gestión para Resultados.

[18] No se desacreditan las complicaciones resultantes de la expansión del virus y las consecuencias sobre la salud y la economía, el comentario simplemente se enfoca en el logro obtenido de las metas, que de acuerdo a la información presentada hubo un incremento en el cumplimiento de las mismas.

Introducción

Este informe presenta los avances, en el año 2020, de los 46 objetivos temáticos establecidos en el Plan Estatal de Gobernanza y Desarrollo (PEGD) Jalisco 2024, Visión 2030. Los resultados están organizados conforme la estructura del PEGD en ejes del desarrollo y en temáticas sectoriales, transversales y especiales.

Las mediciones tomaron como base los 148 indicadores publicados en el PEGD vigente, y que se les da seguimiento en el Sistema de Monitoreo de Indicadores del Desarrollo (MIDE) Jalisco disponible públicamente en https://seplan.app.jalisco.gob.mx/mide. No obstante, el análisis se centra en 117 indicadores que han reportado actualización al mes de diciembre de 2020, con respecto al valor de cierre del año 2019, y que por ende son considerados como "evaluables". El resto de indicadores, que asciende a un número de 31, no cuenta con actualizaciones por parte de su fuente original, que nos permitan, durante la edición del presente documento, calcular los correspondientes cumplimientos de metas 2020 con corte al 31 de diciembre de 2020.

Como ya se estableció, este reporte muestra los avances, considerando el total de las métricas PEGD activas en el Sistema MIDE Jalisco, las cuales están organizadas en dos niveles:

1) **Indicadores estratégicos**, considerados de primer nivel y que corresponden a las mediciones de los objetivos de gobernanza de cada uno de los 5 ejes de desarrollo. Estos indicadores están publicados en el Plan Estatal de Gobernanza y Desarrollo vigente y en el sistema público MIDE Jalisco.

2) **Indicadores sectoriales**, considerados de segundo nivel y que refieren a las métricas que dan seguimiento a cada uno de las 46 temáticas sectoriales establecidas en el PEGD y los cuales también forman parte de la publicación del PEGD vigente y el sistema público MIDE Jalisco.

La información de avances en el cumplimiento de las metas 2020 establecidas en MIDE Jalisco, se presenta de conformidad a los instrumentos y lineamientos vigentes en materia de planeación, monitoreo, evaluación, programación y presupuestación en tres apartados.

En el primer apartado titulado "Indicadores evaluables y cumplimientos de metas generales" se detalla la medición del **cumplimiento promedio global**, que cuantifica, en una sola cifra, el porcentaje promedio de cumplimiento de metas 2020, conforme los retos derivados del PEGD Jalisco 2024, Visión 2030, con corte al 31 de diciembre de 2020.

Asimismo, en este apartado se informa sobre el **cumplimiento promedio por eje**, que mide el promedio de cumplimientos de metas de los valores alcanzados -a la fecha del corte- para cada uno de los 5 ejes de desarrollo, así como de las temáticas transversales y especiales.

En el segundo apartado titulado "Cumplimiento de metas por eje del desarrollo y por temática sectorial del Plan Estatal de Gobernanza y Desarrollo (PEGD) Jalisco 2024, Visión 2030, se informa sobre el **avance**

en el cumplimiento promedio por temática/objetivo narrativo de desarrollo, que arroja el promedio de cumplimiento de metas 2020, de los indicadores alineados a cada uno de los 46 objetivos temáticos narrativos de desarrollo del Plan citado.

Es importante asentar que varios de los indicadores reflejan las circunstancias y efectos derivados de la pandemia en el año 2020. Para mayor información sobre las consideraciones y factores que incidieron en el desempeño tales métricas, favor de revisar el Anexo I Informe de indicadores de Desarrollo, del Primer Informe de Gobierno en: http://informe.jalisco.gob.mx/

Las consideraciones metodológicas para los procedimientos de medición y cálculo implementados pueden ser consultados en "Ficha de medición de avances" en la sección de Documentos ubicada en http://gobjal.mx/MIDEJalisco

En la parte final del documento se integra un apartado anexo con la información a detalle, indicador por indicador, donde se pueden revisar sus avances anuales, así como el cumplimiento de meta caso por caso. Asimismo, se incluyen datos históricos anuales desde 2018, así como los principales elementos descriptores y las metas PEGD 2021.

La información de los indicadores puede consultarse de manera actualizada, dinámica y detallada en MIDE Jalisco en la plataforma en línea:
